

# Sprint 2 Report

DnD Assistant

5/4/22

## Actions to stop doing:

- Creating forks instead of branches off the main repo on Github

## Actions to start doing:

- More task clarity
- Continuous / more consistent integration of components

## Actions to keep doing:

- Everyone comes to the meetings
  - Everyone always makes it every team meeting we have
- Having meeting topics
- Creating mockups of UI designs

## Work completed/not completed:

- Completed:
  - Scraping information that we don't have into a JSON (2)
  - Login buttons
  - Character cards
  - Character buttons for class and race
- Incomplete:
  - As a player, I want to save my character, so that I don't have to create a new one every time
  - As a player, I want a walkthrough of the process of creating a character, so that I don't have to google it
  - Pushing character information into database

## Work completion rate:

- Total number of user stories completed: 1
- Completed work hours: 2
- Duration of Sprint 2: 2 weeks
