Sprint 3 Plan

DnD Assistant App
5/4/22–5/17/22

Goal: Create a website that allows users to create a character

User Story:
1. As a player, I want to create a character, so that I can play the game (8)
    a. Choosing (4)
        i. race, class, background, ability score, equipment
    b. pushing character information into database (2)
2. As a player, I want to save my character, so that I don't have to create a new one every time (2)
    a. Taking previous information and pushing to firebase
3. As a player, I want a walkthrough of the process of creating a character, so that I don't have to google it (3)
    a. character creation process tips along the way
4. As a player I want to be able to search through a list of spells by name, so that I don't need to scroll through a long list (1)
5. As a player I want to be able to filter a list of spells by its attributes, so I can look for a particular spell (1)
6. As a player I want to be able to bookmark my spells, so that I can compare them and have quick access to my favorites (1)
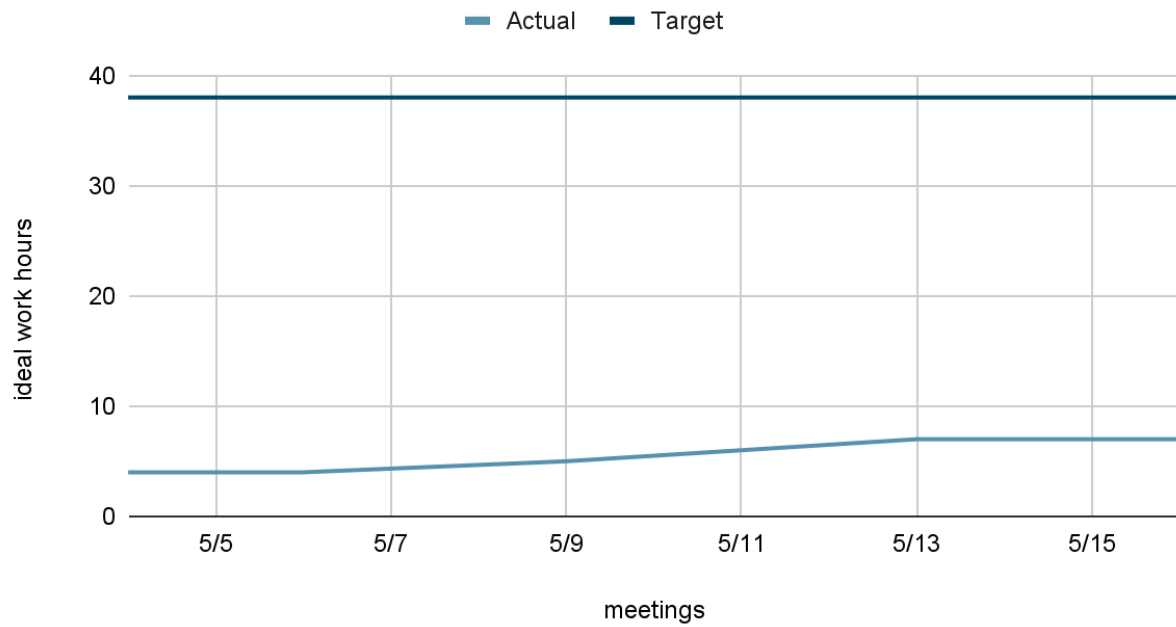

Team Roles:
- Brian
    - Product Owner, Developer
- Brandon
    - Developer
- Mateo
    - Developer, Scrum master
- David

- - Developer
  - Cynthia
    - Developer

Initial task assignment:
- Brian
  - Tips
