Sprint 2 Plan

DnD Assistant App
4/21/22–5/3/22

Goal: Create a website that allows users to create a character

User Story:
1. As a player, I want to create a character, so that I can play the game (8)
   a. Choosing (4)
      i. race, class, background, ability score, equipment
   b. pushing character information into database (2)
   c. Scraping information that we don't have into a JSON (2)
      i. Background
      ii. Feats
2. As a player, I want to save my character, so that I don't have to create a new one every time (2)
   a. Taking previous information and pushing to firebase
3. As a player, I want a walkthrough of the process of creating a character, so that I don't have to google it (3)
   a. character creation process tips along the way
